EIGHTY-SECOND  
AUCTION SALE

OF

RARE COINS AND  
PAPER MONEY

TO BE SOLD  
SATURDAY, MARCH 25, 1933

*By the Cataloguer*  
*M. H. BOLENDER*  
*ORANGEVILLE, ILLINOIS*

## TERMS OF SALE

All coins and bills are guaranteed genuine.

New Bidders or customers sending in bids for the first time **must positively** give first-class reference, bank reference preferable, or else send a deposit of at least **25%** of the total amount of bids. Otherwise, their bids will not be accepted. **To those known to me** who have established credit, a reference or deposit is not necessary, and purchases will be sent out promptly after the sale. **In appreciation** of this courtesy, the purchaser remits promptly.

The terms are **prompt cash settlement** after the sale, and no time given. Collectors who are not certain that they can pay promptly, are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. **Stamps accepted for accounts that are below one dollar only.**

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. **This fee is very low for the superior service I expect to give you.**

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself its a receipt.** However, if a 2-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the con-

dition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill, and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

## COLLECTION CANADIAN COMMUNION CHURCH TOKENS

Note—These interesting tokens in lead, white metal, or an alloy were issued by ministers of the Presbyterian church in Canada during the old days from 50 to over 100 years ago. The custom was for the minister to pass out a token to all who were entitled to Communion, and on Communion Day, once or twice a year, the bearer of a token was admitted and others excluded. A collection of these tokens is of extreme interest, since there is a wide variety of sizes and shapes, square, oblong, oval, circular, irregular, sometimes very rudely made by a local smith or other, or beautifully

made with dies highly ornamented, a piece of fine workmanship, bearing the initial or name of the minister or congregation, a date commemorative of some event in the history of the church, and with reverse side often blank or bearing a text such as "This do in remembrance of Me," or "Let a man examine himself." The use of the tokens in Canada was introduced by missionaries sent out from Scotland, where their use originated in the Presbyterian Church in times of the Reformation and persecution to distinguish a friend from a foe. The use of the metal token has disappeared, and collectors now find it most difficult to assemble a collection. Canadian dealers' lists price them singly at \$1 to \$4 each. Many of them are rare and seldom met with. In size these tokens average from an inch to an inch and a half across, and a display is very attractive and educational. Fine for churches or colleges. McLachlan in his book on the subject lists 241 varieties, and MacLennan's work in 1924 made a few additions.
